

# 1<sup>st</sup> Annual

# Biomaterials Day

An event to

- ❖ Hear from invited speakers
- ❖ Learn about studies at ISU
- ❖ Present your research

Presented by Iowa State University Student Chapter of Society for Biomaterials

**ISU FACULTY PRESENTATIONS**

**DISCUSSION PANELS**

**Present your research by poster!**

**Virtually:  
March 30<sup>th</sup>, 2022  
10:30AM – 4:30PM**

**RSVP ↑**

**Contact: Luman Liu  
lumanl@iastate.edu**

## **KEYNOTE SPEAKERS** **Academia: Dr. Nicholas Peppas**

Dr. Nicholas Peppas is the Director of the Institute for Biomaterials, Drug Delivery and Regenerative Medicine, a renowned chemical engineer at McKetta Department of Chemical Engineering at UT Austin. His research pioneered in the area of polymer, nanotechnology, and drug delivery with world-wide reputation.

## **Industry: Dr. Amy Determan**

Dr. Amy Determan joined 3M in 2006 and has held product developer positions in four different 3M divisions: Drug Delivery Systems Division, Stationery Office Supply Division, Medical Solutions Division. She is currently an Advanced Product Development Specialist in the Separation and Purification Sciences Division.
